

Crosscall X Link Lanyard Phone Strap Removable Black Crosscall

Descriptif produit

With the X-STRAP, you will never use your CORE-T4 or CORE-T5 like before. Thanks to its comfortable Crossbody and rotating handle, you always have your tablet close at hand.

ADJUSTABLE: Custom-made comfort
Your X-STRAP adapts to all your uses, but also to your body type. The non-slip Crossbody and rotating handle are easily adjustable to perfectly suit each user. While 35% of MSDs in 2018 concerned the wrist *, CROSSCALL has designed a tailor-made product: a 360 ° rotating handle that allows you to find the ideal reading angle among 12 possible orientations.

SECURE: A securely attached shelf
Custom-designed for the CORE-T4 or CORE-T5, the X-STRAP directly integrates the X-BLOCKER hanging system to effectively secure your tablet (resistance to a pulling force of 18 kg). A safety buckle has been added on the Crossbody to allow you to quickly and easily free yourself from the X-STRAP when needed. The button of the buckle remains orientable to gain comfort.

ERGONOMIC: Comfortable use
Getting started with the X-STRAP is immediate with easy access to all the functions and buttons of your tablet. Non-slip silicone grooves have been added to the Crossbody to ensure optimal support on your shoulder. Switch in a single gesture from portrait mode to landscape mode thanks to its 360 ° rotating ball handle.

Clever: Thought out down to the smallest detail
With a simple manipulation, the rotating handle can be detached from the Crossbody to allow you independent use and freedom of movement. In addition, you will find a handy location to store your stylus as well as a zipped pocket to slip in your small personal items such as your identification badge. Thanks to the red markers, identify at a glance all the technical points of your X-STRAP.
