

## Multiports Adapter USB C 60W PD to USB C + HDMI™ Ultra HD Black Belkin

### Descriptif produit

#### Use a single USB-C port to display HDMI video content and to charge your device.

Connect your USB-C device to an HDMI TV or monitor and keep it charged with Passthrough technology (up to 60W).

This adapter supports resolutions up to 3840 x 2160 pixels at 60Hz.

Enjoy crisp 4K video content. Plug-and-play, the adapter is compatible with USB-C MacBooks, PCs, and tablets equipped with a USB-C port.

The CONNECT range of products makes connections easy. From cables for charging and data sharing to docking stations that connect devices for a more streamlined experience, CONNECT products transfer data as efficiently as possible while maintaining superior quality.
