

Range Extender WiFi AC750Mbps Dual Band - RE200 White TP-Link

Descriptif produit

Boost your WiFi network and cover hard-to-reach areas

Extend your Wi-Fi network range

Place the RE200 between your wireless router and wireless devices, expanding your Wi-Fi coverage and eliminating Wi-Fi dead zones. Enjoy seamless wireless connectivity throughout your home or office. Dual-band Wi-Fi with speeds up to 750 Mbps not only covers areas up to 90 square meters but also takes full advantage of your high-speed internet connection, ideal for HD video streaming, online gaming, and other bandwidth-intensive activities.

Adapter for digital entertainment

With its Ethernet port, the RE200 can function as a Wi-Fi adapter to connect wired devices such as desktop computers, game consoles, Blu-ray® players, and Smart TVs. Simultaneously, the device can also share your Wi-Fi network.

Compatible with all major internet boxes and Wi-Fi routers/access points

The RE200's AC Wi-Fi technology creates a stronger Wi-Fi signal throughout your home. Works with any router or access point, making it easy to share a broadband Wi-Fi network with multiple devices.

Smart LED Indicator

Smart LEDs indicate the signal strength received from your existing router. Use them to find the best location for your RE200.

Compact and all-in-one design (with integrated power supply), it's easy to deploy and move.

Easily extends network coverage with a simple press of the Range Extender button.
