Descriptif produit

Charge your phone differently with MagSafe technology

Induction charging
No more cables! Simply place your smartphone on the base to charge it instantly without cables.

MagSafe compatible
For faster charging of your iPhone, this induction pad is compatible with Magsafe technology. Multiple built-in magnets precisely align your MagSafe-enabled iPhone and improve charging efficiency.

Fast charge
With up to 15W of charging power, you'll be able to enjoy ultra-fast charging when you need it most.

No need to remove your case
Charge your phone while protecting it. Charging works through the protective case, so there's no need to remove your case to charge.

One wireless charger for multiple devices
The wireless holder supports Qi-certified devices and includes a Type-C input port. Charge all your devices that support inductive charging.

Bigben Connected is a French brand whose products are designed and developed in Paris.
French specialist in smartphone accessories for 25 years, our products are tested and certified according to the standards and directives in force on the market.

How does the Recyclerie work?
You have just purchased one of our products and you wish to return your old product to us for recycling. We ensure the collection of all old products, which are then dismantled and recycled in the appropriate sector by our partner Véolia.

How do I return my product?
Thanks to the QR code or link provided in the pack of the purchased product www.bigbenconnected.fr/recyclerie/, download a prepaid return on our website to send us your product to be recycled.

What happens to my old product?
Once recycled, your product is reintegrated into the production of everyday objects such as: bicycles, radiators, public benches, etc., this is called the circular economy!

What is my product's Green Act rating?
Green Act has been designed to help you make a more responsible choice in favor of the environment when buying an accessory for your mobile. Each product is rated on more than 70 criteria evaluating its environmental, social and ethical impact as well as its performance in use. Find out how the environmental impact of our products is calculated at www.thegreenact.org.
