# Bluetooth® Speaker Player 4 60W Yellow and White Polaroid

## Descriptif produit

### The Polaroid P4 speaker is the largest and loudest of the Polaroid speakers, more than capable of filling even the largest rooms with incredible sound

The Polaroid P4 speaker is about the size of a small watermelon, if a watermelon was more lightweight and able to play your favorite music. It looks great both sideways and upright, thanks to the partner speaker stand accessory (available separately). And of course, it features the full functionality of the Polaroid Music App, allowing you to set up your favorite music channels and scroll between them easily with the analog dial.

Loud and proud.
Our most powerful music player looks as good as it sounds. Premium sound and design that's ready to take center stage.

Use two to tango.
Sync two P4 Players together for stereo sound that's twice as nice.

Let music take control.
The free Polaroid Music app lets you control your Polaroid player with its analog dial, so you can change the music without picking up your phone. Available for Polaroid P2, P3 and P4 players.
