

Descriptif produit

The high-gain USB WiFi adapter promises exceptional wireless speeds of up to 150 Mbps for an optimal video streaming or internet calling experience.

High-Speed Wireless Internet Connection

This adapter allows you to connect a desktop or laptop computer to a wireless network and access high-speed internet.

Ideal Wireless Internet Connection for Gaming Consoles

Compliant with IEEE 802.11n standards, it provides wireless speeds of up to 150 Mbps, ideal for online gaming or even video streaming.

QSS (Quick Setup Security) Button

Securing the wireless connection with encryption can be done with a simple press of the QSS button, protecting your network from external threats.

Improved Range

Based on IEEE 802.11n technology, this adapter further minimizes data loss over long distances and through obstacles, whether in a small office, a large apartment, or even in a concrete and steel building.

Exceptional Wireless Speed

The TL-WN722N delivers superior performance, allowing you to browse the internet more easily, share files, and stream media.

Detachable Antenna

The external 4dBi high-gain antenna can be rotated and adjusted in various directions to operate in diverse environments. It provides better performance than the internal antenna.

Replaceable Antenna

For more demanding applications, the antenna can be replaced with other antennas to provide greater flexibility and wireless coverage.

Connector type USB A / WiFi

Color : White

Ref : 2CADAPTUSBN150

EAN : 3571211506959

Pack contents : Adapter USB WiFi N150Mbps High Gain + User Guide/Security/Warranty

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G .
