

Instant Photo Printer Mini 2 Bluetooth® Pink Kodak

Descriptif produit

Immortalize your moments, your most beautiful memories, day and night, and share them with your friends and family.

This compact and lightweight printer connects directly to your smart device using Wi-Fi and can make a one-touch connection using the built-in NFC. After that, users can open an application for their iOS or Android device and print quickly and easily from a variety of sources.

Using 4Pass D2T2 dye diffusion thermal transfer technology, the Mini 2 photo printer can then produce a 5.3 x 8.6 cm colour photo in about 50 seconds. It also places an overcoat over the image that will protect the image from damage, including making it resistant to fingerprints and water.

For ease of use, the printer works with all-in-one cartridges, which can be replaced quickly and guarantee a perfect ink to paper ratio.

In addition, it has a built-in 620 mAh Li-ion polymer battery that charges via a micro-USB connection

Compatible Bluetooth®

Color : Pink

Ref : 2CKODAKMINI2PNK

EAN : 3571211507437

Pack contents : Instant Photo Printer Mini 2 Bluetooth® + User Guide/Security/Warranty
