

Galaxy Buds FE True Wireless Earphones ANC In-Ear White Samsung

Descriptif produit

Galaxy Buds FE are designed to be your everyday audio companions

Captivating sound. Stunning price.
Unwanted noise is blocked with Active Noise Reduction, and the fit in your ears can be adjusted with a choice of eartips. Galaxy Buds FE connect easily to your Galaxy devices. Experience an audio partner that meets your needs.

Harmonious tones to match your style
We've chosen Graphite and White because they're unmistakable. These colours will complement any outfit, making Galaxy Buds FE the perfect companion for any occasion.

A feeling of comfort in your ears
Galaxy Buds FE are designed to sit comfortably in your ears all day long. Different sizes of ear tips and ear flaps allow you to find the perfect combination for absolute comfort.

A pleasant feel and a secure fit
Easily control your music and calls thanks to a touch zone that's clearly distinct from the rest of the earphones.

Sound that moves you
Stop being distracted by the noise around you and immerse yourself in your own world. With active noise reduction, it's just you and your music.

Silence in a single gesture
Simply touch the dedicated area to activate active noise reduction. And if you want to interact with the person next to you, you can switch to surround sound mode to hear the sound of their voice perfectly, without having to remove your earphones.

Sound that sets the tone
The Galaxy Buds FE audio experience delivers both deep bass and high quality audio, so you can enjoy movies, TV shows and video games in lifelike quality.

Enjoy over and over again thanks to its long-lasting battery
Get up to 30 hours of battery life on a single charge. The battery will keep up the pace so you can listen to your playlists, podcasts or videos on social networks all day long.

Excellent call quality:
- Three microphones to capture your voice with precision: enjoy quality calls thanks to the Galaxy Buds FE's 3 microphones. The primary mic, secondary mic and internal mic work in perfect harmony to accurately capture your voice and transmit your words with clarity.
- From earbuds to diapasion: Galaxy Buds FE use custom beamforming to automatically adapt to the way you wear them, so you get the best possible pick-up. Put them on and they'll locate your voice when you start talking.
- Be heard, in all circumstances: Even in an urban environment or with wind around you, the AI-based solution of the Galaxy Buds FE erases surrounding noise to enable clear calls. It effectively distinguishes and filters out unwanted noise.

Connect them in the blink of an eye
Thanks to the Auto Switch feature, you can switch from one Galaxy device to another without worry: no need to press pause to switch the audio on your TV, enjoy your films and series without missing a word.

Hi Bixby, play my favourite music
Activate Bixby and use your voice to check the weather, search for songs, text your friends and much more. Just say "Hi, Bixby" and ask Bixby to do it for you.

No sooner lost than found
Whether you're absent-minded or just worried about losing them, there's no need to worry: you can track them easily thanks to the Location function. And if someone finds them and pairs them with their smartphone, your details will automatically be shared with them.

Always at your side
Forgot something? The Galaxy Buds FE will alert you when you leave them behind. You won't have to waste time going back to get them.

Adjust your settings to suit your musical tastes
Do you prefer dynamic sound or deep bass? Quickly customise your Galaxy Buds FE settings via the Galaxy Wearable app.

Timeless accessories
You can continue to use your favourite cases with the Galaxy Buds FE, as they are compatible with the Galaxy Buds2 and Buds2 Pro cases.
