Stay autonomous and connected with Galaxy Fit3

Up to 13 days on a single charge

Enjoy up to 13 days of autonomy on a single charge, or quickly return to 65% in just 30 minutes. Spend less time checking your battery, so you can concentrate more on your daily physical activity.

A big screen for big movements

The large 1.6" screen gives you plenty of room to interact with your Galaxy Fit3. Easily view, tap and swipe to get more done in less time.

Slim. Lightweight. Ready to move

With its elegant, lightweight design, the Galaxy Fit3 fits perfectly into your workout routine. Its slim 18.5 g aluminum casing won't weigh you down or get in the way during your workouts. With its 5ATM and IP68 ratings, it's resistant to raindrops and dust. Perfect for your fitness program.

Over 100 workouts ready for you

Explore over 100 different exercises to follow with a double press of the Home button. Forgot to press Start? No need to worry. Your Galaxy Fit3 automatically recognizes and tracks the most popular workouts for you, including running, elliptical machines, rowing and even swimming.

Your health and fitness at a glance

Get a complete view of your workout performance, health, sleep patterns and more with the Samsung Health app on your phone. Check your accumulated health data from your Galaxy Fit3 and view an extended period on a larger screen

A multitude of functions at your fingertips

Find what you need at a glance with intuitive gestures. Swipe right for notifications, left for mosaics, down for the quick panel and up for the app list. Want to start from scratch? Simply press the Home button to quickly return to your home screen. For quick workouts, you can press the Home button twice to switch to the exercise list.

Play, check, respond. All from your wrist

Take a photo, listen to music, check incoming calls and reply to text messages, all directly from your wrist, synchronized with your Galaxy smartphone. Lost your phone? Ask your Galaxy Fit3 to ring your mobile to help you locate it. As an added bonus, you can save your dials, apps and more to keep your favorite settings.
