Charging and data transfer station X-Docke 3A 1m Black Crosscall

Descriptif produit

More than just a support

Discreet, elegant and durable
With its one-piece metal design, 180g self-balancing, 26° X-LINK™* pad tilt suitable for mobiles, smartphones and tablets in portrait or landscape mode, and non-slip base resisting 150g of horizontal traction; the X-DOCKE offers unrivalled stability. Its sober lines and metal finish blend perfectly into any space, adding a touch of discreet elegance.
Whether you're in the middle of a video call, watching a movie, or simply browsing, even with just one hand, every detail has been thought of to enhance your experience.
Tested by Crosscall's X-LAB experts, X-DOCKE guarantees long-lasting performance and resistance to everyday hazards such as drops from a height of 1m20. A support designed to last, today and tomorrow.

Efficient recharge, instant transfer Thanks to its X-LINK™ pad*, the X-DOCKE delivers up to 3 amps of power and transfers your data at 480 Mb/s.
Videos, files, everything becomes accessible in seconds. Fast, efficient, uncompromising.

Two in one, no compromise
We're all mobile. That's why the X-LINK™ pad and its 1m cable are removable, to follow you everywhere.
Whether on a train journey or a vacation in the mountains, take only the essentials with you and enjoy fast, simple charging wherever you are.
Recharge, work and travel in total freedom with an accessory designed to fit in with your everyday life.

Convenient for teams
By combining Crosscall mobiles with X-DOCKE, you benefit from technology designed for modern private networks and great user comfort.
Ideal for teams on call or on rotation, it becomes a self-service terminal in strategic locations, ensuring equipment is always ready for use.

Charge sans fil X Link
