# Wireless travel charger 5-7.5-15W Qi 3 zones foldable Smartphone + Truewireless + Apple Watch MFI + USB C/C Charging Cable Gray Xtorm

## Descriptif produit

### Unfold. Reload. Relax. Discover the convenience of a 3-in-1 foldable charger for your everyday Apple devices.

Unfold.
This gorgeous 3in1 Foldable Travel Charger is all you need to charge your iPhone, Apple Watch and AirPods simultaneously, with just one device!

Reload.
You need only one outlet to charge three devices at the same time. Magnetic, wireless charging is possible for all smartphones that are MagSafe or Qi-compatible, and for earphones that support wireless charging. The round charging pad is made for Apple Watch ®. This part thus does not support charging any other watches.
The universal, magnetic charging surface for smartphones charges an iPhone with an output of 7.5W. Android phones, like Samsung or Sony, get an astonishing 15W!

Relax.
The 3in1 Travel Charger has a warm-grey colour which enhances the calming vibe of the device. Re-energize your devices and give yourself some time to relax.

The included USB-C cable ensures immediate charging. Just plug the cable into an adapter, place your devices on the charging pads and enjoy simultaneous charging for your most-used, daily Apple devices.

Fold. Pack. Go.
This compact and foldable Travel Charger is handy and therefore easy to take with you. It perfectly fits in your bag or suitcase. Unfolded, you can place it on your nightstand, whether you are at home or in a hotel room. When not in use, you easily fold up the Travel Charger. Folded, it turns into a compact and handy package. The magnetic closure ensures protection of the charging surfaces and keeps them safe.

Sustainable and relaxed choice
For the production of the 3in1 Travel Charger, mostly recycled plastics with the GRS-certificate are used. Thus reducing the production of new plastics. Also, the packaging is made of FSC-certified cardboard combined with a hook made of recycled, GRS-certified plastic. Giving you the peace of mind to reload and relax. Sustainable and relaxed choice.

Made for Apple Watch ®
The charging surface for the watch is especially designed for the Apple Watch and MFi-certified.
The charging surface for smartphones and earphones is universal. Magnetic, wireless charging is possible for all devices that support wireless charging.

Safe and efficient charging
All Xtorm products comply with the highest quality and safety standards. Both your connected devices as well as the 3in1 Travel Charger are protected against any mishaps. Built-in mechanisms protect for example against short circuiting, overloading and overheating.
