

Smart Digital Photo frame 10" iOS & Android Black Bigben

Descriptif produit

The smart digital photo frame to share your memories wherever you are

Display your memories in high quality on a 10-inch screen

The 10" connected digital photo frame lets you rediscover your most beautiful memories on a large, bright, and responsive touchscreen. Thanks to its high resolution, each image is displayed with faithful colors and sharp details, for a rendering close to photo paper. The 10-inch format offers an excellent balance between visual comfort and compact size.

Easily control your frame with Wi-Fi and the touchscreen

No more cables or complicated operations: the frame connects to Wi-Fi to receive content remotely. Its intuitive touchscreen allows you to easily navigate between photos, videos, settings, and customization options. You can control everything at your fingertips, without using a computer.

Enjoy your photos and videos as if you were there

The frame supports both images and videos, making it a versatile medium for reliving life's vibrant moments. Videos play smoothly and with sound, for complete immersion. It thus becomes much more than a simple photo frame: a true center of digital memories.

Automatic rotation for always perfect orientation

Thanks to the automatic rotation function, the frame adapts the image orientation (portrait or landscape) according to its position. Whether you place it vertically on a piece of furniture or horizontally on a shelf, the display adjusts instantly for optimal viewing comfort.

Easily send content via the Uhale app

With the Uhale mobile app, available on iOS and Android, you can send photos and videos remotely, wherever you are. With just a few taps, your loved ones will receive your latest memories on their frame, in real time. Perfect for staying connected to family, even when you're far away.

Store your memories with the microSD port

In addition to the internal memory, the frame is equipped with a microSD port that allows you to expand storage capacity according to your needs. Simply insert a card to transfer or store hundreds of multimedia files, without having to use the cloud.

Connect multiple users for a shared frame

Multiple logins allow multiple family members or friends to contribute to the frame's gallery. Each member can upload their own content via the Uhale app, creating a vibrant and collaborative stream of shared memories. This feature is ideal for families living far apart or connected grandparents.

Informations complémentaires

Bigben Connected: The brand for your smartphone essentials

- The consensual style that will accompany you day-to-day
- A wide choice of accessories to charge, protect, personalize, facilitate the use of your mobile
- An excellent value for money with quality products while remaining affordable
- Eco-designed packaging with zero plastic and fully recyclable. Cardboard (certified from responsible forest management), glue (vegetable) and ink (soya)

Bigben Connected is a French brand whose products are designed and developed in Paris.

French specialist in smartphone accessories for 25 years, our products are tested and certified according to the standards and directives in force on the market.

How does the Recyclerie work?

You have just purchased one of our products and you wish to return your old product to us for recycling. We ensure the collection of all old products, which are then dismantled and recycled in the appropriate sector by our partner Véolia.

How do I return my product?

Thanks to the QR code or link provided in the pack of the purchased product www.bigbenconnected.fr/recyclerie/, download a prepaid return on our website to send us your product to be recycled.

What happens to my old product?

Once recycled, your product is reintegrated into the production of everyday objects such as: bicycles, radiators, public benches, etc., this is called the circular economy!

What is my product's Green Act rating?

Green Act has been designed to help you make a more responsible choice in favor of the environment when buying an accessory for your mobile. Each product is rated on more than 70 criteria evaluating its environmental, social and ethical impact as well as its performance in use. Find out how the environmental impact of our products is calculated at www.thegreenact.org.
