

Internal Battery 4900mAh Removable for Samsung Galaxy Tab Active 5 / 5 Pro Designed for Samsung Samsung

Descriptif produit

Designed for the Samsung Galaxy Tab Active5 and Tab Active5 Pro, this official removable battery is an ideal solution for extending your tablet's battery life, especially in professional and industrial environments.

Reliable battery life for intensive use
With a capacity of 4900 mAh, this battery provides stable and long-lasting power throughout the day. It is perfectly suited for field use, extended missions, and situations requiring uninterrupted business continuity.

Removable battery for maximum flexibility
Thanks to its removable design, the battery can be quickly replaced without taking the tablet out of service for charging. This feature is particularly appreciated by professionals working on the go or in demanding conditions.

Guaranteed safety and compatibility
This original battery meets the strictest quality and safety standards. It incorporates protections against overcharging, overheating, and short circuits, ensuring reliable and safe operation.

Official Samsung design
Developed specifically for the Galaxy Tab Active5 and Tab Active5 Pro, this battery guarantees perfect compatibility, easy installation, and performance identical to the original battery.
