

Carbon Monoxide Detector with warning siren White Technisat

Descriptif produit

Protect your home against the 'silent killer' with this high-precision Carbon Monoxide detector, designed to alert you even before the first symptoms of poisoning appear.

Vital protection against invisible gas

Carbon monoxide is an odorless, colorless, and extremely toxic gas that represents a major risk in residential areas. This detector is factory-calibrated to trigger an early alarm, giving you the necessary time to evacuate safely before any physical danger occurs.

Precise and stable measurement technology

Equipped with an advanced electrical sensor, the device ensures stable and accurate detection of CO levels expressed in ppm. It features digital temperature compensation, ensuring constant measurement reliability in conditions ranging from -10°C to +40°C.

LCD Display and immediate alerts

The integrated LCD screen allows for real-time monitoring of gas concentration levels for proactive safety management. Dedicated LED diodes clearly indicate system status, battery levels, or CO detection for intuitive reading of your safety status.

Versatile and certified installation

Compliant with the PN-EN 50291-1:2018 safety standard, this compact device can be wall-mounted or simply placed on a piece of furniture. Its discreet format allows it to be strategically placed in bedrooms, living rooms, or near fuel-burning appliances for optimal protection on every floor.

Technical characteristics

High Precision: Factory calibration for early detection of toxic CO thresholds.

LCD Screen: Digital display of ppm values for immediate visual monitoring.

Thermal Reliability: Digital compensation ensuring accurate operation between -10°C and +40°C.

Safety Standard: PN-EN 50291-1:2018 certified device for rigorous domestic protection.

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G / IPHONE 3GS / IPHONE 4 / IPOD TOUCH .

Compatible WiFi + Bluetooth®

Color : White

Ref : TECHNISATDETECTDIOX

EAN : 4019588533400

Pack contents : Carbon Monoxide Detector with warning siren + Mounting kit (dowels or 3M tape) + User Guide/Security/Warranty
