

Descriptif produit

Protect your home and save precious seconds in the event of a fire with this high-performance autonomous detector, combining a powerful sound alert and smart connectivity.

High-precision photoelectric detection

The TechniSat Smoke Sensor 2 uses modern photoelectric technology to constantly monitor smoke concentration in your living spaces. It reliably detects fire outbreaks caused by electrical appliances, cooking plates, or open flames, ensuring optimal responsiveness at the first signs of danger.

Triple and connected alert system

Upon detection, the device instantly triggers a powerful 85 dB siren and a visual signal via a flashing red LED. Thanks to its compatibility with the Tuya app, you also receive an immediate notification on your smartphone, allowing you to react even when you are away from home.

Exceptional autonomy and durability

Powered by an included DC 3V 2400 mAh battery, this sensor features low energy consumption for maximum longevity. Its robust design provides an operational lifespan of up to 10 years, with an integrated self-monitoring system that signals the end of the product's life.

Simplified and certified installation

Compliant with the European standard EN 14604:2005/AC:2008, this detector guarantees a rigorous safety level for your home. Its compact 105 x 36 mm format allows for quick, wireless installation on any surface using the provided mounting plugs or 3M adhesive tape.

Compatible WiFi + Bluetooth®

Color : White

Ref : TECHNISATDETECFUME

EAN : 4019588533608

Pack contents : Smoke detector with siren Tuya + DC 3V 2400 mAh battery + Mounting kit (dowels or 3M adhesive) + Tuya configuration guide + User Guide/Security/Warranty

Technical characteristics

Connected Alert: Smartphone notification via Tuya, 85 dB siren, and LED light signal.

Reliable Technology: Photoelectric smoke sensor certified according to EN 14604 standards.

Long Autonomy: Included 2400 mAh battery offering up to 10 years of lifespan.

Easy Installation: Versatile mounting via screws or 3M adhesive with a discreet compact format.

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G / IPHONE 3GS / IPHONE 4 / IPOD TOUCH .
