

Smart Camera Cruiser Triple 3 Lens 3MP+3MP+5MP Outdoor White IMOU

Descriptif produit

Benefit from elite outdoor monitoring with a revolutionary system combining three lenses for total coverage.

360° Triple-view sentinel surveillance

Eliminate all blind spots on your property with this unique three-lens system offering a total 360-degree monitoring powerhouse. By combining two fixed 3MP lenses for a wide 160° coverage with a 5MP pan-and-tilt lens, this layout ensures unparalleled clarity for your home defense.

Instant target locking and tracking

Powered by its advanced system, the dual fixed lenses ensure continuous monitoring over an extended 160-degree perimeter. The moment you spot an interesting event on the IMOU app, a simple tap allows the pan-and-tilt lens to automatically move toward the target in 3K 5MP Ultra-HD.

Smart AOR economic recording mode

The exclusive low-power, low-occupancy AOR (Always On Recording) mode offers prolonged loop recording without any worries. The camera captures one frame per second during idle times and only records full-frame video when a suspicious object is detected, saving up to 85% of space.

Dual SD slots for 1TB of local storage

This premium model pushes technical boundaries by becoming the only device capable of supporting up to 1TB of local storage. This exceptional capacity is made possible thanks to the integration of two 512GB Micro SD cards, securing your video history logs.

Night vision management to light up the dark

The device adjusts different high-performance night vision modes according to your needs to secure your outdoor spaces. You can choose to maintain permanent full-color viewing or activate the smart mode that automatically switches from infrared to full-color upon detection.

Algo Play AI and targeted object detection

The camera supports multiple powerful AI algorithms to improve the efficiency of your daily surveillance. It accurately captures the shape of people and vehicles within the frame, acting on your behalf to instantly notify you in case of an actual risk factor.

Zone protection and virtual line-crossing

Effectively restrict unauthorized access to specific sensitive areas of your property using built-in intrusion detection features. Program a virtual line-crossing parameter for both people and vehicles to generate highly accurate and fully customized alerts.

Active enhanced deterrence and total connectivity

The system integrates advanced deterrence features to immediately repel intruders using sharp light and sound warnings. Its professional structure reliably faces all storms, while its extended network connectivity allows you to manage favorite points and schedules remotely.

Technical characteristics

Tri-View technology : Exclusive 3-lens matrix layout (3MP+3MP+5MP) offering simultaneous and highly detailed perimeter monitoring.

Click2Track system : Intelligent linkage interface that automatically targets the PT lens by tapping the application screen.

Algo Play AI : Advanced customizable detection matrix designed to filter out false alarms and target people or vehicles.

AOR Saving mode : Smart recording feature that reduces memory usage by up to 85% during low-activity monitoring frames.

Dual SD card slots : Exceptional local storage boundaries supporting up to 1TB of local storage via two card expansion slots.

Active Deterrence : Red/blue flashing lights, powerful spotlights, and loud siren to immediately repel any unwanted intruders.

Wi-Fi 6 Capability : Latest-generation network hardware ensuring a stable, long-range, and lag-free high-definition stream.

IP66 Weatherproof : Professional structural design engineered to reliably withstand rain, dust, wind, and outdoor elements.

Compatible mobiles

Compatibilité

Compatible avec : IPAD 2 9.7 (2011) / IPHONE 3G / IPHONE 3GS / IPHONE 4 / IPHONE 4S / IPOD TOUCH / 7 PRO / GALAXY ACE S5830 / GALAXY TAB 10.1 P7100 .

Compatible WiFi

Color : White

Ref : IMOUCAMCRUISER11MPWH

EAN : 6976391035157

Pack contents : Smart Camera Cruiser Triple 3 Lens 3MP+3MP+5MP Outdoor + AC adapter + Mounting template + Waterproof connector (for Ethernet cable) + Screw and anchor kit + User Guide/Security/Warranty
