

Smart Door-viewer VD1 with 4.3" LCD Monitor 3K 5MP Ultra HD - 2.4/5 GHz Panoramic View Black IMOU

Descriptif produit

Secure your home access with a high-definition connected peephole combining panoramic view and control screen.

3K 5MP Ultra HD image quality

This connected door viewer redefines entry monitoring thanks to a high-performance 5-megapixel optical sensor. It delivers crystal-clear images in 3K Ultra HD resolution, allowing you to accurately distinguish every detail and instantly recognize your visitors day or night.

Panoramic and wide-angle viewing

Equipped with a premium wide-angle lens, the device provides a comprehensive panoramic view of your porch or landing. This extended visual coverage effectively eliminates blind spots around your front door, ensuring you never miss any movement or packages left on the ground.

Integrated indoor monitoring screen

The indoor module features a high-quality color screen designed to display a perfectly sharp live video stream. This intuitive display allows all family members, including children and the elderly, to see who is at the door at a single glance and without effort.

High-performance dual-band Wi-Fi

Incorporating both 2.4 GHz and 5 GHz network frequencies, this device guarantees ultra-fast and highly stable wireless transmission. This optimized connectivity allows you to receive instant notifications and check the video feed remotely from your smartphone with no latency.

Active security and smart storage

The system integrates intelligent motion detection algorithms to alert you in real time in case of suspicious activity in front of your home. Its robust structure fits perfectly onto your door while secure storage options preserve the history of your recordings.

Compatible WiFi

Color : Black

Ref : IMOUJUDAECRAN5MPBLK
