

MagSafe Wireless Powerbank Slim Magnee 5000mAh 1 USB C port 15W Qi2 Foldable Stand White Urban Factory

Descriptif produit

Next-generation ultra-slim MagSafe wireless charging certified with Qi2 technology

Advanced 15W Qi2 Wireless Charging
Experience the latest generation of wireless power thanks to official Qi2 certification that doubles energy efficiency. It delivers a perfectly aligned, safe, and reliable wireless charging speed up to 15W for all your compatible devices.

Ultra-Compact 5000 mAh Slim Profile
Easily slip this external battery pack into your pocket or bag courtesy of its remarkably thin and lightweight engineering. Its 5000 mAh capacity provides the ideal backup energy to extend your smartphone's battery life all day long.

Powerful MagSafe Magnetic Grip
Benefit from an exceptional magnetic hold that keeps the power bank firmly secured to the back of your phone without any risk of slipping. The automatic alignment guarantees optimal energy transfer instantly upon contact.

Versatile Bi-Directional USB-C Port
Charge a second device or power up the battery pack itself at high speed using the high-performance 15W USB-C port. This modern connector offers total versatility to power up all your traditional wired accessories.

Premium and Safe Engineering
Its sleek, modern design blends harmoniously with your smartphone's aesthetics without adding any uncomfortable bulk. The built-in electronic protection system regulates temperature and prevents overcharging to preserve battery health.
