

Smart Watch Galaxy Watch 8 BT 40mm Silver Samsung

Descriptif produit

Next-generation connectivity powered by Galaxy AI

Cutting-edge performance and absolute fluidity
Driven by the advanced 3 nm Exynos W1000 processor, the Galaxy Watch 8 delivers outstanding power and optimized energy efficiency. Running on Wear OS with One UI Watch, it ensures a seamless user experience for managing notifications and multitasking on the go.

Ultra-bright Super AMOLED display
The 1.34-inch display, shielded by highly durable scratch-resistant sapphire crystal glass, offers crystal-clear readability even in direct sunlight with a peak brightness of up to 3,000 nits. Its compact 40mm armor aluminum casing brings a sleek look to any wrist.

Advanced health and wellness coaching
Monitor your physical condition accurately using the advanced BioActive sensor, featuring bioelectrical impedance analysis (BIA), ECG recording, heart rate tracking, and blood pressure monitoring. Smart personalized insights help you reach your daily fitness goals.

Precision tracking and rugged durability
Optimize your workouts with comprehensive automatic exercise tracking and a dual-frequency GPS that captures your outdoor routes with extreme accuracy. Certified IP68, 5 ATM, and military-grade tough, it is built to endure water and demanding activities.

Compatible Bluetooth®

Color : Silver

Ref : SM-L320NZS

EAN : 8806097415732

Pack contents : Smart Watch Galaxy Watch 8 BT 40mm + Magnetic USB charging cable + User Guide/Security/Warranty

Technical characteristics

- Premium Performance: Next-gen 5-core Exynos W1000 (3 nm) processor for unmatched speed and fluid navigation.
- Ultra-Bright Screen: 1.34-inch Super AMOLED display offering perfect outdoor visibility up to 3,000 nits.
- Enhanced Durability: Highly scratch-resistant sapphire crystal glass combined with an armor aluminum frame.
- Advanced Health Monitoring: BioActive sensor tracking body composition (BIA), ECG, and heart rate metrics.
- Dual-Frequency GPS: High-precision geolocation capturing highly accurate outdoor running and training routes.
- Certified Ruggedness: Built to last with IP68 dust-tightness, 5 ATM water resistance, and MIL-STD-810H compliance.
- Smart Ecosystem: Wear OS with One UI Watch providing seamless access to your favorite apps and tools.
