

Descriptif produit

The ultimate outdoor adventure companion combining warm lighting and an immersive sound experience

Warm LED lighting and retro lantern design
Illuminate your outdoor evenings with a retro-inspired lantern delivering a soft, cozy glow. Its multiple adjustable brightness modes allow you to create a warm and welcoming ambiance under your tent, in the garden, or during evening picnics.

High-quality Bluetooth sound streaming
Enjoy your favorite playlists wherever you go thanks to the built-in high-performance Bluetooth speaker. It delivers clear, balanced, and powerful 360-degree sound to accompany all your relaxing moments outdoors or at home.

High-capacity battery and Powerbank function
Never run out of energy during your expeditions thanks to an extended battery life engineered for long trips. Its built-in USB port allows you to use it as a practical emergency powerbank to recharge your smartphone or small devices.

Rugged and water-resistant construction
Face outdoor conditions with complete peace of mind thanks to a sturdy build engineered to withstand light impacts and weather elements. Its certified water resistance protects it against rain, splashes, and dust during your camping trips.

Portable design with carrying handle
Effortlessly carry your speaker lantern thanks to its integrated ergonomic handle and lightweight build. It easily hangs from tree branches or tent poles, and sits with great stability on any flat surface.

Technical characteristics

Modular lighting: Retro-style LED lantern featuring multiple brightness levels for a tailored ambiance.
360° sound: Integrated Bluetooth speaker providing clear and powerful audio performance outdoors.
Powerbank function: Built-in USB output port to recharge your mobile devices whenever needed.
All-terrain build: Sturdy and water-resistant structure shielded against rain, splashes, and dust.
Ultra-portable format: Practical carrying handle allowing for easy hanging or stable tabletop setup.
